

Sure Lock Spiral Snap Ring

Part No.
36744-01

NOTE: Fits '89-Later.

Ford E40D, 4R100

1. Disassembly

- Using spring compressor, compress overdrive return spring.
- Remove and discard OE return spring retaining ring.

2. Installation & Assembly

- Install one end of Sonnax Sure Lock ring into retaining ring groove.

WARNING: Do not use screw driver to install, force, or pry spiral snap ring into place.

- With ring end fully installed in groove, work the ring into the groove one wrap at a time (**Figure 1**).
- After ring is fully installed, make sure locking tabs are engaged with the cut-outs in retaining ring as shown. It may be necessary to bend locking tabs up to get a secure lock (**Figure 2**). Do not bend the cut-out ends.

WARNING: Be sure snap ring is installed correctly. Failure to install correctly may result in unit failure.
