

## 2.84 Ratio Input Carrier Kit

**Part No.**  
**77284-K**

- Carrier Assembly
- Input Sun Gear

**NOTE:** Cannot be used with '07-later reaction shaft. For these applications, source an '06-earlier reaction shaft or use Sonnax universal heavy duty reaction shaft kit **74602-01K**.

## GM 4L60, 4L60-E, 4L65-E, 4L70-E

### Identify & Obtain Compatible Bearing

OE bearing 8642191 *or* 24217327 (.140" thick) **MUST BE** used with this kit (**Figure 1**).

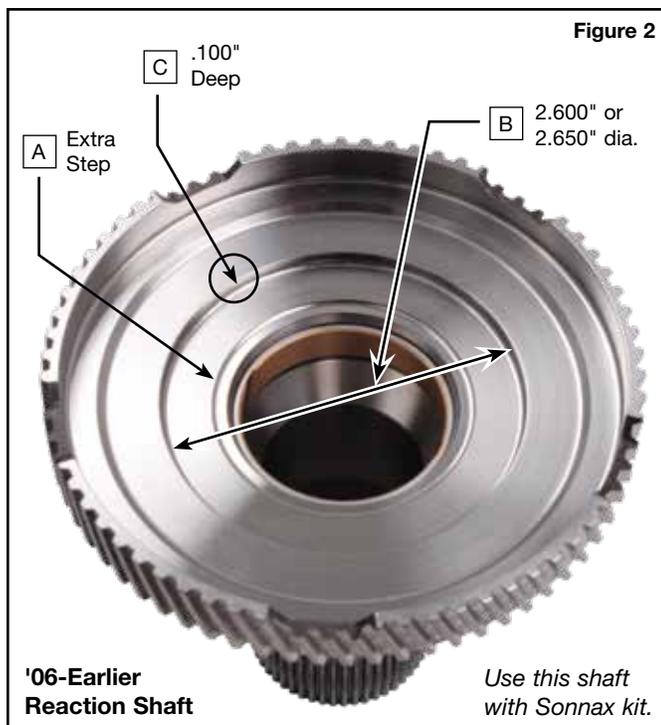

**NOTE:** OE bearing 24236092 (.170" thick, .240" overall with lip) **CANNOT** be used with this kit (**Figure 1**).

**NOTE:** In addition to correct bearing, this kit requires use of '06-earlier reaction shaft (**Figure 2**).  
DO NOT use '07-later reaction shaft (**Figure 3**).

Only '06-earlier reaction shafts can be used with this kit. This shaft has an extra step on bearing riding surface "A" (**Figure 2**). Dimension "B" will be either 2.600" or 2.650" dia. Dimension "C" will be .100" deep.

'07-Later reaction shafts CANNOT be used with this kit. This shaft does not have an extra step on bearing riding surface "A" (**Figure 3**). Dimension "B" will be 2.490" dia. Dimension "C" will be .130" deep.
