

GM 4L60, 4L60-E, 4L65-E, 4L70-E

Heavy Duty Reaction Shaft Kit

Part No.
74602-01K

- Reaction Shaft w/Bushings
- Bearing Reaction Shaft-to-Shell
- Bearing Reaction Shaft-to-Front Carrier
- Shim

NOTE: Universal kit, fits all years and all input carrier styles. Replaces the following OE part numbers: 19369220, 19356510, 24236094, 24241255, 24222756.

NOTE: This reaction shaft is different than OE and other aftermarket replacement shafts and will fit all years and styles of input carriers. Follow instructions below for installation options.

1. To determine what style input carrier you have, see **Figures 1 & 2** and reference close-up **Insets A & B**.

- For Early 1983–2006:** 4 & 5 pinion input carriers and Sonnax 77284-K 6 pinion 2.84 ratio input carrier assembly with shim and included .140" thick reaction shaft-to-front carrier bearing (Figure 3).
- For Late 2007–Later:** 4 & 5 pinion input carriers choose option 1 or option 2. This kit includes .140" thick reaction shaft-to-front carrier bearing for option 1 and does NOT include .170" thick bearing for reaction shaft-to-front carrier bearing for option 2 (Figure 4).
